Indian Tents and Villages

**Hau Kola Tipi**

## TIPI & INDIAN CAMP

## CATALOG

**H**ow to surprise  
your friends  
and impress your neighbors.

**P**urchasing a tipi guarantees **unforgettable memories** of great moments spent with your family and friends, an **impression on neighbors** and **happiness in your children's eyes**.. Quit with boredom and monotony! A **tipi is a magic place**, where time stops. Even mosquitoes stay away!

People tend to call a tipi an Indian tent, but don't believe it. Forget about a tiny and cold place, what in fact a tent is. It is **always warm in a tipi** and you can start a fire there! It is spacious enough to be occupied by 30 people at the same time.

Sounds like a real s a l o o n, doesn't it?

**Imagine...**

...you lie down in a warm and comfortable bed, you **smell roasted sausages** and other tasty flavors mix with the scent of cut wood. The **fire** burns nearby, **magic shadows appear** on the tipi's walls, and you can see **twinkling stars** in the sky through a little hole just above your head. You fall asleep remembering the glamorous time of your childhood.

*"Spending time in a tipi is just stunning. It's big, comfy, spacious, and the scent of fire recalls feelings of unconstrained freedom, warmth, adventure and delight. It reminds me of valuable time spent with my friends."*  
**Darek Szybka, a tipi's owner**

*"It's been 20 years since I first camped in a tipi and I cannot imagine it differently. The fire gives warmth and this special atmosphere, and I can watch the stars in the sky through open smoke flaps - what else do you need?"*  
**Robert Piesiecki, a tipi's owner**

*"A night spent in a tipi is unforgettable, even stars observed through the hole look different, somehow mysterious. You cannot put into words the impression a tipi makes. You just have to experience it yourself."*  
**Pablo Red Heart, a tipi's owner**

*"When I stepped into the tipi, I felt as if I was stepping into my own house. It's because of its unique atmosphere. I felt as a native Indian. It was incredible to watch the sun rays coming through the hole inside during the day, and possibility to watch glittering sky in the night."*  
**Wojtek Jaszczur, 13 year old**

## How to get rid of mosquitoes?.

Have you ever dreamt of a **place, where you can hide from mosquitoes** and **relax** at the same time? Have you dreamt of a place where the atmosphere is not stifling and a chilly wind skims your face bringing along the **scent of fresh apples**? A place like this exists. As you already know, there is a fire inside a tipi. A tipi is made of natural linen, which absorbs smoke and resign from burning wood. Those are scents which mosquitoes hate

**A tipi is like a protective bar against any biting insects.** They smell the smoke from faraway and simply fly in other direction. Is it a place you have dreamt of? It is only the beginning of tipis' advantages.

## Who else needs to cool down on a hot day?

Is it possible to enjoy chilly wind and pleasant scents on a hot, humid day?

It is enough to **fold up sides of a tipi**, made of natural linen and open the door. Immediately **the wind starts to circle around** captured inside the tipi. Lying on comfortable bedding we can smell roasted apples and prunes. Fire causes the liquid of this particular flavor to evaporate from the wooden poles.

*"When it's warm in the summer, you fold up parts of the linen and it's getting even more pleasant. When it's getting cold, you throw another piece of wood to the fire and close the door. It can be freezing outside, but you don't really care about it. Tipi is just great!"*

**Krzysztof Stereńczak, A tipi's owner**

## Winter does not necessary finish our adventure with a tipi...

You probably thought that once the winter has come, you need to fold down the tipi and that's it. Nothing more misleading!

It is winter time  
that brings the utmost fun with a tipi!

## Imagine...

You are getting back from skiing or sledging. Or maybe you just had a snowball fight. It's a **freezing afternoon**, the temperature outside falls below 20 degrees. You can either go home, or... organize unforgettable evening in a tipi! Burning fire will immediately warm up the interior and **you can undress from jacket and sweater**. It is minus 20 degrees outside! Hard to believe? I remember New Year's Eve spent with my friends in a tipi.

**It was minus 27 degrees outside! And wearing shirts**, we roasted sausages, in a big pot we were making game stew, next to that we grilled bacon and courgettes

**You** can laugh at people  
canceling barbecue parties because of rainy weather,  
... when you have a **T**ipi

**You** probably won't believe when I say, that...

**barbecue can work even in sever rainfall and thunderstorm**. It is hard to believe but when it rains outside it gives even more pleasure to stay in a tipi. Why?

Imagine having a barbecue in the garden and suddenly terrible rainfall comes! You desperately try to gather all things and rush to the house wondering how to squeeze all guests inside.

Think of the times, when it's raining and you wonder, looking though the window: "**How nice would it be to have a barbecue and a little get together with friends**". If only you had a tipi?

Waterproof **walls prevent raindrops** to get inside, the **fire gives light and warmth**, and there is enough space to invite up to 30 people. All you need to do is go shopping and make a few phone calls. **Unforgettable parties in all weather conditions?** You can be sure of that.

**A** piece of advice for parents,  
who want to make their child happy.

A tipi is a dream-come-true for every child. Who have not read books about Indians? Who haven't run in the woods with archery in a hand or who haven't built lodges or little houses out of blankets? Who haven't dreamt of spending a moment in an original, Indian tent? For many, it is still a dream, **but...**

**...everyone deserves a chance** to make their dreams come true. And so do you. You can fulfill your or your child's dreams. **The spark of happiness in your child's eyes**, when it plays in the tipi... The **moment is priceless**. Our kids spend a lot of time playing in a tipi, what allows us to have more time for ourselves.

*"After some time spent in my tipi I felt fantastic. I enjoyed the silent atmosphere, peace and friendship that were filling the inside. All that time was an experience that I will not forget till the end of my life. It was something unbelievable. I cannot wait until I move in there again."*

**Angelika Jaszczur, 14 year old**

**D**o you think of revitalizing your body and soul?  
Stress brings you down?  
A tipi will allow you to regain all the energy there is in you!

For many people, a **tipi is an asylum**, a place where they find peace and stillness. It's a kind of lonely desert, where time stops and sorrows disappear. **The circle** on which a tipi is build **evokes soothing feelings**. Scent of resin has a calming effect as well. Closeness of nature makes **all bad feelings fly away with the smoke** high up to the sky.

A tipi follows rules of 5 Elements of FENG SHUI, what **guarantees positive flow of energy**.

**D**o you treasure art and beauty? You deserve a bit of luxury.

For those, who fancy **art and beauty**, and for those, who want to possess something unique in their garden, we have prepared a surprise.

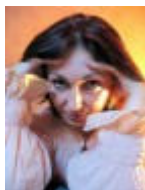

**A** tipi can become a real **piece of art in the garden**.

We hire professional artists, who decorate vast piece of linen, of which a tipi is made, with visions and vivid scenes of caring animals, eagles, bears, bison and panthers. They all seem to liven up in the light of an open fire.

**Compare the tipi below and decide whether you deserve this kind of luxury.**

## Listen, what OTHERS have to say:

*"Neat and beautiful home as a gift from old, blissful times of noble Indian culture, has become my asylum. It means that **dreams do come true***

*Since early childhood, I have always been fascinated with tribes and their way of life. I was especially fascinated with respect they showed toward nature and every creature, even if it was to become an object of hunting. Indian beliefs and habits filled with mysticism, joy, simplicity and dignity envisioned longing for the lost paradise. Since I have a tipi in my backyard, I can discover the perfection of lost paradise over and over again. This perfection is tangible.*

**The perfect form of this light** but long lasting construction amazes with proportions. With its poles sticking out, it opens up for the magic of the universe. The universe, revealed in colors and symbols, permeate into interior through mystic fire in the middle. The sacred fire, giving Indians and us **light, warmth, sense of security and finally joy** that comes thanks to closeness of friend.

*Smell of smoke, comfortable beddings and lack of disturbing mosquitoes allow both children and adults to fall asleep easily. **No one would even think of getting back to brick house**, even when it rained.*

*My caring animals visible on the linen are panthers - believe me, you can feel safe having them around."*
